The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for the purposes of determining the period of extension and the corresponding amount of the fee. Any extension fee pursuant to 37 CFR 1.17 will be calculated from the date of the originally set shortened statutory period for response or as set forth in b) above.

- ☐ Appellant's Brief is due in accordance with 37 CFR 1.192(a).
- ☐ Applicant's response to the final rejection, filed \_\_\_\_\_ has been considered with the following effect, but it is not deemed to place the application in condition for allowance:

ATTACHMENT TO ADVISORY ACTION

The rejection of claims 1-8, 10, and 14 under obviousness type double patenting is withdrawn in view of applicants' terminal disclaimer.

Upon appeal, claims 6, 7, and 10 will stand rejected under 35 U.S.C. § 103 as being unpatentable over Peiffer '916. Applicants have amended claim 7 to recite "up to about 20%" acrylate instead of "about 0 to about 20%" acrylate. This amendment is not a significant amendment because the phrase "up to about 20%" still encompasses 0 acrylate. Applicants' arguments concerning acrylamide are not persuasive. Claim 7 recites "comprising" which provides for the possible inclusion of other unspecified monomers even in major proportions. Therefore, water soluble polymers comprising monomers A and B and acrylamide are within the scope of claims 6, 7, and 10.

Claim 8 is allowed.
